Policy Title: Student Government Association Constitution

AAPC: We have no idea what a “sovereign” document is. The language needs to be improved so that the policy can be understood.

POLICY:

Georgia Perimeter College recognizes the Constitution of the Student Government Association (SGA) as a sovereign document, created to define the functions of self-governance, democracy, accountability, and student advocacy. The SGA Constitution consists of a series of documents that govern the policies and procedures of the GPC Student Government Association.

Copies of the SGA Constitution can be found in the Student Life Offices on each campus.
