Printing from Wireless Network

You will need to install a small software program to print from the wireless network from your personal laptop .

1. Visit the [Wireless Printing for Students](http://www.gpc.edu/~gpcoitds/wprint.htm) (<http://www.gpc.edu/~gpcoitds/wprint.htm>) website and follow the instructions to download the printing application. Make sure to select the Decatur Campus application to print from Decatur. You can also install the applications for other campuses if you use the network in multiple locations. You will only need to download the application(s) once.
2. Once the application is installed, click the Print icon or File: Print from any program as usual to start printing.
3. Select **decspool on Tealc** as your printer.
4. Enter your GPC email username and name your print job in the pop-up window.
5. Release your print job(s) from any of the Print Release Stations. Your name on the Release Station will be your GPC email username.
