

**Online Assessment: How Immediate Feedback Affects How Teachers Teach and Students Learn**

**Nancy Mullins**

Florida Community College, Jacksonville, FL

**Brad Franklin**

John Wiley and Sons

Online homework management programs have become an invaluable asset at many institutions. These systems make it possible for instructors to get an instant pulse on how their class is doing and allow students to receive in-context help and immediate feedback.

Come join a hands-on faculty-led workshop in how to use the WileyPlus system and hear from a chemistry instructor how best to integrate this technology into your course.
